

WATER WASTEWATER INTERNSHIP PROGRAM

ABOUT THE INTERNSHIP

The Water & Wastewater Internship Program is a joint offering from local water and wastewater authorities. Participants 18 and over will gain practical work experience through a paid temporary work assignment. Through our multi-faceted approach, interns will have the opportunity to shadow industry professionals in a wide range of work experiences. Interns will get to learn the ins and outs of the industry via hands on methods. Potential career opportunities and professional skills will be gained through this internship. Veterans, adults wishing to make a career change, recent graduates and/or current students that meet the requirements will be considered.
